S. M. Damon, Hon. G. N. Wilcox, Mrs. A. S. Wilcox, Mr. Chas. H. Brown, Mr. J. N. S. Williams, Mr. Wm. A. Sparks, Punene store, officers and employees of Kahului R. R. Co.

Fine Job Printing, Star Office.

## NO PLACE FOR GIRL

DEMOCRATIC ASPIRANT WILSON WOULD TAKE JOB AWAY FROM SELF-SUPPORTING INCUMBENT.

In regard to the fight for jobs in the Road Department the question has been asked several times as to who is responsible for the selections of the Democratic candidates for office. Fern, of course took the general responsibility of this upon himself, by making the appointments in his own name. Johnny Wilson, however, who is outside the door of the Road Department office, trying to get in and assume the reins of power, states that he is the man who made the selections and seems ready to take any blame that can be placed on the manner in which things may turn out.

Another question has been asked in the department, as to whether the Democratic party is on the anti-suffragette tack. The only girl in the department, Miss Lloyd, who has held the position of stenographer for some years past and has given perfect satisfaction, is slated to be one of those to be ousted, should the Fern-Wilson program be successful. Anderson, who was the candidate for county auditor on the Democratic ticket, is slated to fill this job, though he says perfectly frankly that he never made any application for the position.

In regard to this matter Wilson says that he does not think that the Road Department, where there are many laborers around, is the fit place for a woman. When his attention was called to the fact that the laborers have never been allowed to come inside the counter under the previous administrations, he had nothing to say. He would not say that he wished to deprive a girl of the chance of earning her own livelihood in a position which he could not deny that she was competent to fill, but simply stuck to the one thing, that he did not think a woman ought to be in the position. His chief bookkeeper, R. W. Cathcart, stated that as far as he is concerned he has no objection whatever to seeing Miss Lloyd remain in her present job. He said that he believed that she was competent and that through the old friendship that he had held for her father he would be glad to see her remain.

## MAIL IN AT 7 P. M.

Wireless messages received this morning by the local agents, H. Hackfeld & Co., from the Toyo Kisen Kaisha S. S. Nippon Maru, coming from San Francisco, announce the fact that the vessel will arrive off port at 5:30 o'clock this afternoon.

She will probably be alongside the Hacked wharf at 7 p. m. and will sail for the Orient tomorrow.

The Nippon Maru is bringing mail a week later than was last received.

## INTERESTING CASE UP TO DOLE

It is expected that an extremely interesting admiralty decision will be handed down by Judge Dole on next Monday. The case mentioned is that of the British ship Loch Garve which ran ashore some two years ago on Molokai. The vessel was pulled off the beach where she was stranded by the Intrepid and two inter-island steamers and towed to this city. She remained in port for several months while repairs were being made and an inquiry was made into the cause of the disaster by a consular court. The inter-island sued for \$32,000 as salvage, while the claim of the Fearless was for \$1500.

The stranding of the Loch Garve was a rather sensational affair, the charge being made and substantiated that at the time of her being beached, her officers and crew were under the influence of liquor.

## FIRST AID BY AUTO

The latest proposition talked over by the Board of Health is the estimate submitted to Governor Frear for an automobile ambulance to cost \$5000. In addition to this two chauffeurs will be needed at \$80 per month and it is estimated that \$250 will cover the expense of extra tires for the biennial period. The total estimate for salaries and running expenses is placed at \$7990.

The Shippers Wharf committee of this city, which has been paying \$600 per month toward the mosquito and rat campaigns in this city will cease all contributions to the Board of Health funds after February 28, according to an announcement which has been made. As the result the Board of Health will ask the Legislature for an appropriation of \$12,000 to fight rats and \$300 to fight mosquitoes. The Legislature will also be asked for \$1500 to erect a morgue for Hilo dead.

In a report submitted to the Board of Health yesterday Sanitary Inspector Bowman states that he found forty dead rats under a stable in Hilo, twenty-eight of which were killed by bubonic plague. No cases of plague have been discovered in Hilo of late and the disease has evidently been confined to the rats. Bowman states that he is examining an average of sixty rats per day in Hilo at present.

The new Japanese fish company, through its attorney A. L. C. Atkinson, has asked the Board of Health for permission to peddle fish through the city in carts. The opinions of the members of the Board of Health on the matter varied and the plan was referred to the committee on rules and regulations. Atkinson says that his concern will be very careful about sanitary conditions if allowed to have the privilege that is sought.

The Board of Health has taken charge of the new building which has been erected for the Kalihui Manual Training School, as the building for the boys recently brought down from Molokai is known. It is proposed to ask the Legislature for an appropriation of \$30,000 for a suitable building for the Kapiolani Girls' Home.

## TESTA GETS HOMESTEADS

Acting Governor Mott-Smith spent most of the morning on land matters today. One of the most important things to be taken up was the final approval on right-of-purchase leases of nine lots at Lualualei, on this island. They were taken up by a hui of Hawaiians and Portuguese, of whom Francisco J. Testa is the mentor. An average price of \$23.50 per acre will be realized, the price obtained being \$11,115 for 469.8 acres.

Mott-Smith signed a patent to lands bought by Henry D. F. Meyer, a few days ago for \$585, consisting of one of the Punchbowl lots. A patent for Iosua Kaeo for one and eight-tenths acres under an old Royal Land Commission grant dating back to 1848, was also signed on the payment of a commutation of \$33.75.

## PACIFIC WEEKLY TOMORROW.

"It is said" that the number of interesting little bits of news to be found in the "It is said" column of the Pacific Weekly, will cause many things to be said, which might be better left unsaid. The police department and several Territorial officials will find interesting information in regard to their work.

Society Chit Chat, telling of really sassy occurrences which have taken
